Valid from: 01.04.2019	IEC extension cable KEL ST XX x 2 x 1,5	

Application

The extension cables KEL Version ST XX x 2 x 1,5 mm² are twisted paired, PVC insulated cables with aluminium foil screen which transmit the thermoelectric voltage of Fe/CuNi thermocouples. They are for flexible use and fixed installation in dry and damp rooms with medium mechanical load. They may only be installed outdoors with UV protection and in observation of the max. permitted temperature range. The overlapping foil wrapping screens the cores against electromagnetic interference.
