SKINTOP® BT-M

The SKINTOP® BT-M is a cable gland with a trumpet for bending protection of flexible cables and wires, with metric connection thread. The supply cables to electrical appliances and machines, which are moved during usual use, must be protected against excessive bending.

This technical requirement is satisfied in the SKINTOP® range by the SKINTOP® BT-M or by the SKINTOP® BS-M. As with the rest of the SKINTOP® range, the clamping force has a central strain relieving effect on the entire cable perimeter, this is particularly important for bending protection.

Components:

53017420

Gland body Polyamide (UL 94/V2)

Cap nut with bending protection trumpet Polyamide (UL 94/V2)

Sealing ring CR

Technical features:

Connecting thread M16x1.5 up to M25x1.5 acc. to EN 60423

Functional thread Multi-start trapezoidal thread

Protections class / NEMA Type Rating IP68 - 5 bar, test acc. to EN 60529

NEMA Type 1 and Type 12

Temperature range -20°C up to +100°C

Colour RAL 7001

Approvals:

c **FII**us

UL File Nr. E79903 (Test in acc. to UL514B)

Norm references:
